FOUNDATION MIXTURE

30% LATE Perennial Ryegrass, D
30% LATE Perennial Ryegrass, D
15% LATE Perennial Ryegrass, T
15% LATE Perennial Ryegrass, T
8% INTERMEDIATE Timothy
7% MEDIUM White Clover

15.00 KILO PACK

BENEFITS

- **Permanent Pasture Mixture**
- Suitable for all livestock
- Very high quality is achieved by using a carefully selected blend of late heading pasture perennial ryegrasses, clovers and Timothy which have a high D value combined with high levels of sugar, minerals and protein content.
- FOUNDATION will also retain its quality when left to bulk up because it contains high D value pasture perennials which do not produce early seed heads.

Sowing rate: 14-15kg per acre

Pack size: 15kg

DESCRIPTION

Ultimate intensive grazing mixture achieved by the selection of new highly vigorous grasses provides a dense uniformed sward

I-DS are aware of the importance for good grass which is high in quality and palatability, **Foundation** will provide a sward that is exceptionally dense, high yielding and achieve maximum animal performance, improving both milk and meal production

- ✓ Reliable and continuous Continuity in the clamp each year
- ✓ Easy to establish and outstanding groundcover

Late pasture perennial will provide extended seasonal growth which start growing early and finish late providing at least **3 week more leafy grazing**, no early seed heads unlike conventional leys

- Early Spring and Late season growth
- Consistency in the clamp year after year
