DESCRIPTION

Permanent pasture mixture **originally formulated by myself in 1996** and since adopted by other leading suppliers, the mixture was originally named "Highlander +Altitude" although after successful on farm trials in lowland farms, we decided to drop the "+altitude": Billy Nimmo MD, I-DS.

Providing excellent long-seasonal grass yields for grazing and silage if required over many years. Timothy is extremely resistant to cold temperatures and provides good late-season growth. The thick bottomed sward structure is obtained by using late perennial ryegrasses, creeping fescues and highly nutritious white clover. **This mixture is very hardy and can be grown in upland or lowland areas.**

- **Provides outstanding Upland/Hill Grazing**
- **Leading Permanent Pasture Mixture**
